

Welcome to Reflex Protect

Until now, cross-contamination, misuse, and potential escalation of dangerous situations prevented implementation of effective self-defense measures. However, **Reflex Protect** is designed to disable only the targeted attacker with minimal collateral effect. Its intuitive design is fast-acting and empowering, making it the most state-of-the-art security system there is.

How to Install

Reflex Protect is designed to be stored safely and ready for use in its custom docking station. The docking station may be installed with the accompanying mounting screws or adhesive tape. Complete dock installation instructions are included in the enclosed installation material bag.

Once the dock is installed, set the bottom of the **Reflex Protect** canister in the round base of the dock and snap the spray head trigger guard into place at the top of the dock.

NCS Fast

Although incapacitating an attacker is the number one goal, it is still important to be able to provide relief to those who have been sprayed, as well as ensure a clean environment after deployment.

If you ever need to use Reflex Protect, a top priority will be the return to normalcy. Because of this, we created **NCS Fast**, our proprietary formula that provides the most effective and rapid personal relief, as well as the cleaning and decontamination of surfaces and objects. **NCS Fast** is effective on both CS and OC (pepper spray) gels, stream, and sprays.

Training and Practice

All employers are responsible for training all potential users of the contents of this product. This instruction manual is only intended to provide instruction on the proper installation and use of **Reflex Protect** and **NCS Fast**.

Additional training materials are available at reflexprotect.com. We recommend repeated and regular practice with inert units, as well as in removing the unit from the dock and assuming the two-handed deployment system. Target practice (under supervision and in a safe, designated location) using the inert training unit to improve accuracy and familiarity with the safety features of Reflex Protect is highly recommended.

How to Use Reflex Protect

1. Remove the unit from the dock by grasping the canister and cocking your wrist up and back to pop the Reflex Protect unit free.
2. Grip the canister with the nozzle facing the target, middle finger on the stabilizer, index finger off the trigger, preferably with both hands in a Pistol Style Grip.
3. Press index finger firmly against the trigger block allowing it to pop free.
4. Push the thumb safety up and forward.
5. Place index finger on the trigger.
6. Aim for the subject's face, especially the eyes, using the rear site on the thumb safety and the front site above the nozzle.
7. Squeeze the trigger, adjusting your aim to ensure maximum facial coverage.

**** In the highly unlikely event CS Gel merely "bubbles" out, rapidly and sharply shake the unit in a downward motion to clear the rare vapor lock and resume firing.*

**NON-LETHAL IS THE
FUTURE OF SELF-DEFENSE.**

**REFLEX PROTECT IS THE
FUTURE OF NON-LETHAL.**

Reflex Protect is dedicated to advancing the technology behind non-lethal self-defense alternatives. The first of these all-new technologies, the patented *Pistol Style Spray Head*, marks a fundamental change in the way chemical agents can be deployed in order to deter and stop attacks, assaults, and any other threat.

It would be best if you never have to use **Reflex Protect**, but we hope our efforts provide you with the best technology to protect your family, your loved ones, and your community.

SAFETY AND WARNINGS

Unlawful to take aboard aircraft.

Do not leave in vehicle.

Do not attempt to use after expiration date.

Single use only. Replace after use.

Severe eye, skin, and respiratory irritant.

May cause allergic reactions/symptoms or breathing difficulties.

Contents under pressure. Do not puncture or incinerate can.

Do not store below 32°F (0°C) or above 120°F (50°C).

Avoid contact with eyes.

Do not ingest.

Keep out of reach of children.

The use of **Reflex Protect** for any purpose other than self-defense is a crime.

Not for use as bear spray.

Contents are dangerous. Use with care.

LIMITED WARRANTY

This product is guaranteed to be free from defects in material and workmanship for a period of one (1) year. If this product fails to operate any time before its expiration date due to a manufacturing defect, return it to Reflex Red Storm, LLC, and we will replace it free of charge. This warranty does not cover products that have been abused, altered, improperly installed or stored, or damaged.
